

R-25

The R-25 is a feature-packed cruiser designed for comfort, ease of use, and FUN! You'll find the Ranger Tugs DNA built into every facet of the R-25's thoughtful design.

Right away you'll notice one of the most innovative features of the R-25, our Clear-Path swim platform. The extended swim platform wraps around the outboard to present a clear walkway with twenty square feet of nonskid decking, free of traditional engine rigging, which opens a whole new world of fishing, cruising, and water-sports opportunities. This exciting new design features heavy duty handrails and allows you to safely and easily board a dinghy, net a fish, step to or from a low dock (important for pets), and med-tie without fear of damaging your outboard and having to leap to the dock.

The main salon on the R-25 is light and bright, making it a perfect spot to relax or entertain. The dinette seats four or converts to a bed for two. The forward stateroom is private and comfortable featuring a large bed, opening hatches for airflow, reading lights, and a TV/DVD combo. The R-25 features a fully enclosed head equipped with an electric marine toilet, sink and shower. There's even a spacious quarter berth with a removable mattress that can be used to accommodate guests/kids or for expanded storage. An electric/alcohol stove top, refrigerator/freezer combo, microwave, and sink with hot and cold water, make food prep fun and easy.

Driven by a Yamaha F250 outboard, the R-25 is fast and efficient. The power of the 250 HP Yamaha is perfectly matched to the R-25's planing hull. The R-25 also features our patented Laminar Flow Interrupter technology providing smooth, positive cornering performance. Never get lost and enjoy monitoring your speed and performance from the state-of-the-art Garmin 1242xsv chartplotter with GPS, transducer, and sonar.

The easily trailerable Ranger Tugs R-25 is a fantastic boat for cruising, fishing, and fun on the water. The private head, extended swim platform, multiple sleeping areas, and full galley give you everything you need to get away from the dock and spend some serious quality time with (or without) your friends and family.

RANGER TUGS = MORE VALUE

Green text signifies a high-value feature that is included in the price of your Ranger Tug. Most other boat manufacturers consider these features to be "options" which add to the final selling price of the boat. The new R-25 is loaded with over \$20,000 worth of features and benefits that you can expect to pay for when purchasing a new boat from other manufacturers.

Additional Factory Options
